## Mali Zagreb

Osjeti puls gradskog života pogledom u minijaturne izloge obrta

Nova serija minijaturnih instalacija **Mali Zagreb** inspirirana je obrtima i njihovim radnjama koje su se tijekom povijesti razvijale i mijenjale zajedno s gradom. Obrti su se otvarali i zatvarali, nastajali i nestajali, ali uvijek su imali natpis ili izlog po kojem su bili prepoznatljivi. Nekih se od njih možemo prisjetiti kroz novu seriju minijaturnih radova.

Na četnaest lokacija u centru Zagreba postavljene su instalacije koje predstavljaju pažljivo uređene izloge obrtničkih radnji kao što su urarske i krojačke radnje te mesta za predah i uživanje, poput slastičarnice i buffeta. Serija radova **Mali Zagreb** skreće nam pozornost na vrijednost malih stvari u životu, jer se iz njih mogu razviti one velike i značajne.

Minijaturni radovi ove su godine potaknuti razvojem i rastom upravo onih obrta koji su nastali davno, kao mali obiteljski poslovi te su upornošću i vizijom svojih vlasnika postali uspješni i cijenjeni. Minijaturne su instalacije i dalje postavljene negdje pod našim nogama, zato slijedi kartu, zastani, pogledaj dolje i pronađi **Mali Zagreb**!

## Mali Zagreb

Feel the pulse of city life by looking at the miniature craftsman shop windows

The new series of miniature installations **Mali Zagreb** is inspired by crafts and craftsman shops that have been developing and changing along with the city throughout history. Opening and closing, appearing and disappearing, the craftsman shops always had a sign-board or a shop window by which they were recognizable. We can recall some of them through a new series of miniature works.

At fourteen locations in the centre of Zagreb, installations are set up which represent carefully arranged shop windows of craftsman shops, such as watchmaker's and tailoring shops, as well as places for leisure and enjoyment, such as a pastry shop and a buffet.

The series of artworks **Mali Zagreb** draws our attention to the value of small things in life, because large and significant ones can develop out of them. This year's miniatures were inspired by the development and growth of those crafts that originated a long time ago, as small family businesses, and through the persistence and the vision of their owners, became successful and respected. Miniature installations are still placed somewhere under our feet, so follow the map, take a moment, look down and find **Mali Zagreb**!
